

Jan. 20, 2000

Goal 12: Cultural resources within the river corridor shall be preserved, protected, managed, and treated for the inspiration and benefit of past, present, and future generations.

MO1: Maintain the integrity of cultural resources with preservation the optimal condition.

MO2: Cultural resource management decisions shall be made in consultation with agency officials, State and Tribal Historic Preservation Officers, Tribes, and interested parties.

Definitions:

*Cultural resources* include traditional cultural resources, buildings, sites, districts, structures, objects, or landscapes, and associated records of significance in history, oral tradition, architecture, archeology, culture, or science.

*Consultation* is the process of communicating through various means and considering the views of others for the purpose of seeking agreement on how cultural resources should be identified, preserved, protected, managed, and treated.
